

STIFTUNG KORBGEMEINSCHAFT
HILFE FÜR SYRIEN

Light and Hope for Syria!

The devastating war, the ever tighter economic sanctions and the Corona pandemic have plunged the people in Syria into hopelessness, poverty, unemployment, homelessness and famine. The children and the socially disadvantaged, the sick, the elderly, the handicapped and people with a low education level are the victims of these hardships, to which they have been exposed for more than 10 years. Today, over 90 percent of the Syrian population are living way below the poverty line. Everything has become unaffordably expensive. People need urgent help for food, medicine, energy and rent. Without help from outside, many people will not manage to survive these extreme deprivations. Families who have relatives abroad receive support from them from time to time. But there are countless poor or impoverished families who do not receive this type of help from abroad.

Let's give light and hope to the people in Syria!

School education for a better future

Search for food

Search for energy and warmth

God bless you for your solidarity and for any help!
