HILFE FÜR SYRIEN

Bread for Syria

„I was hungry and you gave me something to eat" (Matthew 25:35)

The humanitarian situation in Syria is deteriorating year after year. People are sinking into ever deeper poverty. Everyone is fighting for sheer survival. Prices are skyrocketing, at the same time salaries and wages are very low. Many poor people are searching for food in the garbage cans.

Bread is the most important staple food in Syria. The Syrian state has so far been able to subsidize flour. As a result of the economic sanctions that the West has imposed for years, it can no longer allocate enough flour to the bakeries, and the quantities available are becoming noticeably smaller. So we are now looking for other ways to organize flour in order to help people survive.

We, the foundation „Korbgemeinschaft – Hilfe für Syrien“, are asking for your active support. We want to buy wheat and flour or collect large quantities for the "Bakery of Grace" so that as many people as possible can get bread.

Please help us accomplish this task! In this situation threatened by hunger, the only saving power we have is the grace of God, acting through the hands of the benefactors.

God bless you for your compassion and for any help!
